

My Baby Won't Sleep!

My baby won't sleep unless she's in my arms,
being adorned like the sweetest of charms!
Not in the house when it's as quiet as a mouse.
Not in a car driving near or far.
She will not sleep unless she's held.
Where's my husband? I need to be spelled!
Not in her crib, not on her back,
not while laying flat, or in a sleep sack.
Not in her swing, not in the dark,
not while in the stroller at the park.
My baby I love you, we both need to relax,
mommy's calling in help, I'm calling **#TeamSleep_Jax**
